

## All-Hazards IMT Position Task Books Transition Process

---

The existing Colorado Position Task Books (PTBs) posted on the DHSEM website are valid for use until replaced by an All-Hazards Interstate Incident Management Team Qualifications System (IIMTQS) PTB.

When Position Task Books are added to the Interstate Incident Management Teams Qualification System (IIMTQS) they are automatically approved through the adoption of the IIMTQS Guide by the State of Colorado (on July 13, 2015).

The new IIMTQS PTB will be posted on the DHSEM website and the previous (Colorado) PTBs will be removed. The effective date of the new PTB will be included on the new PTB, which will be the date of posting on the DHSEM website.

<http://www.dhsem.state.co.us/emergency-management/resources>

*Colorado PTBs issued before the date of posting the new IIMTQS PTBs are valid for three (3) years from the date of the first task entry.*

PTBs issued after the date of posting must be the new, IIMTQS PTB.
